

REDUCE MAINTENANCE & PART REPLACEMENT COSTS

The Quick Change Electrode is CenterLine's innovative toolless solution to efficiently change out electrode assemblies or straight adapters on your welders.

Replace your adapters in seconds with our dripless, toolless solution.

ADVANTAGES

- ▶ Reduced maintenance costs - less damage to components, faster/simpler replacement procedure
- ▶ Reduced part replacement costs - only replace adapter & backup electrode; collar & clamp remain
- ▶ No tools required to switch out the assembly
- ▶ Easy to locate & lock in place to control electrode orientation
- ▶ Retrofit to easily replace your existing assembly
- ▶ Quick couple water fittings minimize water loss during replacement
